## Principal's Report

### Christmas Fund Raiser

On **Wednesday** we are asking students to bring a gold coin donation to school to see if we can raise at least \$98 to send to Oxfam. This will provide drinking water for an entire school.

Many students living in poor communities in South Africa don't have access to clean water, toilets and sinks, meaning they frequently go to school with diarrhoea — or don't attend at all. Through donations such as ours, the introduction of water tanks, latrines, and an ingeniously simple hand-washing device called a tippy tap, students are healthy enough to attend school, and they have clean water for growing and cooking food.

If we raise more than this amount we will look at buying the village a goat, chickens, or similar. This Christmas help those less fortunate than us.

More information take a look at the Oxfam website.

**HISTORY:** The Bunyip (bunyip) is a large mythical creature from Australian Aboriginal mythology, said to live in swamps, billabongs and waterholes. The origin of the word bunyip has been traced to the Wemba-Wemba or Wergaia language of Aboriginal people of South-Eastern Australia. In recent years there's been a lot of buzz about the creature's existence. ## Year 4

Last week we finished our Accelerated Literacy unit on the text 'Truck Dogs' which was very interesting. For some of us, it was our first taste of a book of that size, it was an interesting book that we enjoyed reading right up until the end. Also last week we looked at our plants and broke down the importance of the different environmental factors and how they affect the lifecycle of a plant.

This week we will wrap up our intensive swim program. There have been a lot of very tired children every day!

Remember Presentation Night Thursday!

Learning the guitar is all about consistency and momentum, especially in the first year. Daily practice is vital in maintaining your confidence to continue the journey, and your weekly lesson give you necessary feedback and direction. Xmas holidays are fast approaching and are often the best time to knuckle down and gain some traction. It's a great way to make up for the busier times throughout the year. If you are going on vacation, could you take a guitar with you? Many students who up their game during the Xmas break come out head and shoulders above the rest in the new year. Lets make this Xmas count! Closing Dates (Monday 21st of December - Sunday 13th of January) I also wanted to remind you that we continue lessons through the school holidays (except the 2 weeks over Xmas/New Years). Due to the extra week and a half extra closing time, make up lessons will be issued for the extra 1.5 weeks. If you will be away outside of these closing times, please let me know. (Please note you do not need to adjust your fees. The low rate of \$99 per month is based on a 50 week year. It covers you all year round and takes into account the 2 week break.) Thank you, and have a fun and musical holiday season! Regards, Shane Greig G4 GUITAR SCHOOLS Griffith, NSW

## Total Fire Ban rules

A total fire ban means no fires out in the open. A total fire ban helps limit the potential of fires developing.

During a Total Fire Ban you cannot light, maintain or use a fire in the open, or to carry out any activity in the open that causes, or is likely to cause, a fire.

No general purpose hot works, such as welding or gas cutting can be done in the open.

The NSW RFS strongly recommends you reconsider activities such as using a tractor or slashing, to help reduce the chance of a fire starting on your property. Under certain conditions, the NSW RFS may issue a Cease Harvest request.

### Why are Total Fire Bans declared?

Bush fires are more likely to spread and cause damage on days when the weather is very hot, dry and windy. These are usually on very high to extreme fire days.

To reduce the risk of fires damaging or destroying life, property and the environment the NSW RFS Commissioner may declare a Total Fire Ban.

### Can I use an electric barbeque?

You can use an electric barbeque for cooking as long as it is under the direct control of a responsible adult, who is present at all times while it is operating, and no combustible material is allowed within two metres at any time it is operating.

### Can I use a gas barbeque?

You can use a gas barbeque under the following conditions:

- It is under the direct control of a responsible adult, who is present at all times while it is operating;

- No combustible material is allowed within two metres at any time it is operating;

- You have an immediate and continuous supply of water; and

- The barbeque is within 20 metres of a permanent private dwelling such as a home; or

- The barbeque is within a designated picnic area and the appliance is approved by Council, National Parks or State Forest.

### Can I use fire during a Total Fire Ban if I have a fire permit?

Permits are suspended on days of total fire ban. Permits may resume after the total fire ban is lifted, as long as the permit hasn't expired.

More information on permits can be found on our [Fire Permit page](#).

### What is a No Burn day?

The EPA may prohibit the burning of fires in the open or in incinerators by issuing a No-Burn Notice (see section 133 Protection of the Environment Operations Act 1997) if it is of the opinion that, because forecast weather conditions, burning is likely to contribute to the build-up of air pollution.

To find out if a No-Burn notice is in force

- check the [EPA website](#); or

- check the Public Notices section of the Sydney Morning Herald. A No-Burn notice will be published in the newspaper on the day it is in force; or

- call the EPA Environmental Information Line on 131 555.

## Are there any exemptions during a Total Fire Ban?

A range of activities may be exempt from Total Fire Bans, such as emergency infrastructure work, bee hive smokers, mining operations, sugar cane harvesting, use of fireworks or ceremonial fires. The NSW RFS Commissioner is responsible for exemptions to Total Fire Bans. These exemptions are detailed in the [NSW Government Gazette](#) each time a Total Fire Ban is declared.

### How do I apply for a Total Fire Ban exemption?

If you want to light a fire, or carry out any hot works activities during a Total Fire Ban you can check the Government Gazette to see if there is a standard exemption that applies to your situation. If the standard exemptions don't cover your circumstances then you may apply for a specific exemption using our [Total Fire Ban exemption application form](#).

You will receive an acknowledgement email upon our receipt of your application however a minimum of seven days processing time is required for us to assess your application.

If approved the NSW RFS will issue an Exemption that contains any conditions that you must follow when lighting the fire or conducting your activity on the total fire ban day.

### What penalties are there for lighting a fire during a Total Fire Ban?

Lighting a fire on a day of Total Fire Ban attracts an on the spot fine of \$2200. If the matter goes to court, you could be subject to a fine of up to \$5500 and/or 12 months gaol.

Penalties for a fire that escapes and damages or destroys life, property or the environment can attract much greater fines and gaol terms with maximums at \$132,000 and/or 14 years gaol.

Civil law suits can also be brought against the person responsible for a fire by those seeking compensation for losses sustained.

## More information

Call your local [NSW RFS Fire Control Centre](#), or local Council for further advice.
